Statement of Purpose

Section I. Mission Statement

C.S. Lewis Academy is committed to providing an education that is challenging and responsive to individual needs; preparing students for life in a safe, nurturing environment that fosters character development and spiritual growth based on Biblical truth.

Section II. Philosophy of Education

The educational process in a Christian school is dependent on a Biblical philosophy, which provides a biblical worldview and essential truths for life so that students may be prepared to assume their proper place in the home, church, and state.

Accordingly, the philosophy of education for the school is as follows:

CSLA's educational philosophy is based on a Christ-centered view that all truth is God's truth. Our goal is to provide a worldview which produces a balanced personality and a proper understanding and acceptance of a person's role in life at home, work, play, and worship, all grounded in the Christian concept of love. Our intent is to impact students spiritually, mentally, intellectually, physically, socially, and emotionally. We hope to raise up young men and women to godly service, to train them in Biblical principles, responsibility, proper behavior, and citizenship, in order that they may grow to be strong Christian leaders in the future. This will be achieved through Christ-centered teachers integrating God's Word with a high-quality academic program and by providing students the opportunity to develop their spiritual gifts and ministry skills.
